

MESIROW WEALTH MANAGEMENT

Distinctions between advisory and brokerage services

Mesirow Financial Investment Management, Inc. (MFIM) is registered with the Securities and Exchange Commission as an investment advisor. Mesirow Financial, Inc. (MFI) is registered with the Securities and Exchange Commission as a broker-dealer and is a member of FINRA/SIPC. Through MFIM and MFI we offer both investment advisory and brokerage services.

Our financial professionals work with clients and prospects to determine which services are best for their individual facts and circumstances. Based on your needs we can act as an investment advisor, a broker-dealer or both. Investment advisory services and brokerage services are distinct and separate. The specific services that we provide you along with our duties and obligations to you will be described in documentation and contracts with you.

Investment Advisory Services

We offer investment advisory services to retail and institutional investors. We provide financial planning services, in which we provide advice and recommendations regarding your personal investment goals and objectives. We do not monitor your investments and you make the ultimate decision regarding the purchase or sale of investments.

We also provide portfolio management services that we offer on a discretionary or non-discretionary basis according to the authority you provide in an investment agreement with us. When you grant us discretionary authority, you provide us with authority to determine the investments to buy and sell in your account on an ongoing basis.

You may impose reasonable restrictions on our discretionary authority, which must be provided to us in writing and accepted by us. If you do not provide us with discretion, then we will make recommendations and you will have the final decision regarding whether we purchase or sell investments on your behalf. As part of the portfolio management services, we will continuously monitor your investments and provide advice.

Acting as your investment advisor, we must act in your best interest and not put our interest ahead of yours. This is referred to as our fiduciary duty to you. We will enter into a written agreement with you that describes our obligations and acknowledges our fiduciary duty.

Brokerage Services

We charge transaction-based fees, known as commissions, for brokerage services at the time any security is purchased or sold in your account. We make more when there are more trades in your account. That means we have an incentive to encourage you to trade often.

We have no discretionary authority over your account. You may select investments or MFI may recommend investments for your account, but the ultimate investment decision as to your investment strategy and purchase or sale of investments will be yours.

In determining whether to adopt a recommendation, clients should analyze the expenses related to any recommendation. Unless expressly agreed we will not monitor your account and will not make implied hold recommendations.
