We are pleased to present our annual Mesirow Institutional Real Estate Direct Investments 2023 ESG report for calendar years 2022 and 2021. Environmental, social and governance (ESG) remains a fundamental driver influencing every investment decision we have undertaken since the founding of our real estate platform, 16 years ago. Our primary responsibility has been and continues to be maximizing investors returns, and we are committed to add value by addressing ESG risks and opportunities throughout the term of our ownership of multifamily assets.

We believe our pursuit of superior risk-adjusted returns and the optimization of ESG outcomes are aligned as complimentary objectives. As the investment protocols for ESG disciplines continue to evolve and mature, our investors will continue to advance ESG initiatives with respect to the longer-term performance of their real estate portfolios. In an effort to be more transparent, we have chosen to report disclosures regarding these material ESG topics.

We recognize there are direct and indirect environmental and social implications underlying many decisions we make as an investment manager. As real estate owners our decisions impact our residents, investors, employees and local communities.

This report highlights our 2022 accomplishments, initiatives we are undertaking in 2023 and ESG disclosures. We are pleased with the progress we are making and look forward to continuing our sustainability initiatives.

To our Stakeholders

Head of ESG
Highlights and Initiatives

2022 Highlights

- Portfolios achieved significant GRESB¹ score increases
  - Fund II: GRESB Green 3-star Rating; overall score 77
  - Fund III: GRESB Green 3-star Rating; overall score 75
  - Fund IV: GRESB Green 3-star Rating; overall score 77
- Acquired two investment properties with green building certifications
- Achieved Green Globes certifications at three existing properties
- 6 operating properties achieved an Energy Star ratings with an average Energy Star score of 94
- All properties in deregulated energy markets have fixed-pricing contracts and provide for at least 50% of supplied energy coming from renewable sources

2023 Key Initiatives

- Pursue energy rating opportunities
- Expand energy data coverage to increase metrics and measurement of outcomes on ESG initiatives
- Optimize third-party ESG data availability
- Expand resources dedicated to ESG and coverage of assets impacted by ESG integration
- Increase ESG engagement with Stakeholders
- Increase the number of green building or wellness certifications in our portfolios

1. The Global Real Estate Sustainability Benchmark (GRESB) provides transparency and consistency for related standards and reporting. The GRESB Rating is based on the GRESB Score and its quintile position relative to all participants in the GRESB Assessment, with annual calibration of the model. If the entity is placed in the top quintile, it will be a GRESB 5 Star rated entity; if it ranks in the bottom quintile, it will be a GRESB 1 Star rated entity, etc. As the GRESB Rating is calculated relative to the global performance of reporting entities, it shows you exactly where you stand on a global scale. GRESB 5 Stars is the highest rating and recognition for being an industry leader. Each year, 20% of entities receive a GRESB 5 Star rating.
About Mesirow

Mesirow is an independent financial services firm founded in 1937 and owned by employees.¹

- Global headquarters in Chicago with offices worldwide; 510 employees
- $240.4B in total assets under supervision²
  - $135.6 billion in non-securities currency assets under management
  - $51.5 billion in assets under advisement
  - $53.3 billion in regulatory assets under management (i.e., securities)
- Strong balance sheet with $370M in capital³ and no debt
- Institutional investment teams with specialized expertise across global asset classes

¹ As of 03.31.23 unless otherwise noted.  
² Mesirow Financial Investment Management, Inc. (“MFIM”) is an investment advisory and management services firm and is an SEC-registered investment adviser, CFTC-registered commodity trading advisor (“CTA”) and member of the NFA. Investment management services are provided through MFIM, Mesirow Institutional Investment Management, Inc. (“MIIM”), and Mesirow Financial Private Equity Advisors, Inc. (“MFPEA”), all SEC-registered investment advisors. Currency-related services are provided through MFIM (Currency Division), in its capacity as a registered CTA.  
³ “Assets under supervision” includes regulatory assets under management; assets under advisement; and non-securities currency assets under management. For these purposes: (1) regulatory assets under management (“RAUM”) is calculated in accordance with Instruction 5A of Form ADV and includes all assets of securities portfolios (both discretionary and non-discretionary). (2) Some assets under advisement (“AUA”) are on a 45-to-90-day lag due to time needed to confirm away assets. (3) Currency assets under management includes AUM associated with (i) active and passive currency risk management products $134.91 billion, (ii) non-fx overlay strategies such as equitization and beta overlays $730.90million, and (iii) alpha strategies $32,888,890. In all such cases, AUM is calculated based on notional value of currency investments. Additionally, AUM for alpha strategies is adjusted because clients can select a volatility target (generally between 2% and 12% annualized), which is normalized to 2% in order to create a consistent depiction of alpha strategy AUM. This results in a “scaled” AUM, which is higher than the actual aggregate notional value of all alpha strategy portfolios if clients have selected a volatility target higher than 2%. As of 03.31.23, the “unscaled” AUM for alpha strategies was $5,930,048.  

As of 03.31.22 (updated annually in June).
About Institutional Real Estate Direct Investments

Institutional Real Estate Direct Investments (“IRED”) is a division of Mesirow Financial Investment Management, Inc. (“MFIM”) an SEC-registered investment advisor and a wholly owned subsidiary of Mesirow Financial Services, Inc. (“The Firm”).

• Our investment portfolios are private, close-end real estate funds organized as Real Estate Investment Trusts (“REIT”)
• Located in Chicago, IL with employees working nationwide; 16 employees
• Our strategy is to invest in value-add real estate opportunities in the multifamily sector located solely in the United States, diversified by geography, economy, reposition strategy, construction type and vintage year
• We target 25-30 research-approved US markets for investment

The purpose of this report is to provide information related to ESG performance indicators relating to Mesirow Institutional Real Estate Direct Investments (IRED).

- Given the nature of our organization, there is some overlap in the Firm’s ESG strategy particularly in Social and Governance topics. The Mesirow ESG policies that directly relate to IRED will be discussed in this report. This report was prepared in accordance with Global Reporting Initiative (GRI) standards. There are two alignment options: Core Option and Comprehensive Option. IRED has chosen to align with GRI Core Option and supplemented with Sustainability Accounting Standards Board (SASB) disclosures. This report has not been externally assured.

- Our 2023 ESG Report is focused on the performance of our operating properties across all Mesirow Real Estate Value Fund portfolios. The content of this report is structured to elaborate on how IRED treats ESG issues across all portfolios and properties. Some information is broken out by investment fund for greater transparency and to align with GRI or SASB standards.

- This report explores ESG impacts throughout CY 2022 with a comparison of asset performance to CY 2021. IRED’s annual ESG report will be issued to investors and on The Firm’s website by June 30th subsequent to year end.

Questions regarding this report may be submitted to Jon Youhanaie, Head of ESG at jon.youhanaie@mesirow.com
External Initiatives and Industry Memberships

1The Firm became a signatory in November 2019. IRED policies and procedures are incorporated into the Firm's Transparency Report related to the Direct Property module.
We have developed our understanding of the views and priorities of stakeholders through various methods of engagement with our investors, employees, third-party property managers, residents, and local communities where we live, work, and operate. We will continue engaging stakeholders and welcome all discussions relating to what matters to our stakeholders.

**Residents**
We engage our residents through periodic tenant satisfaction surveys, resident events, property communications and social media.

**Employees**
We engage employees through employee satisfaction surveys, Mesirow’s Employee Wellness program, and annual employee reviews.

**Third-party Property Managers**
We interact with our third-party property managers daily, but engage them on ESG factors on a monthly or quarterly on-site visit, during annual meetings and in our property management agreements.

**Investors**
We solicit feedback from our investors through annual meetings, quarterly questionnaires and quarterly financial reporting.

**Local Communities**
We engage local communities where we live, work, and own investment properties. We engage communities through charitable giving, volunteer events and, in some instances, through the local community Chamber of Commerce.
Materiality

It is our intent to regularly assess ESG factors to focus our ESG strategy and reporting methodology. We plan to expand our stakeholder engagement methods over the coming years and update our materiality assessment to ensure we are constantly making progress and reducing our negative impact.

Based on our engagement methods with various stakeholder groups and professional organizations, IRED has identified several material ESG topics which have been incorporated into our ESG strategy. The chart to the right is a graphical representation of the relationship between ESG topics that stakeholders consider important and our opinion about the impact the topic has on our business. The 10 topics with the greatest impact on our business are presented in detail throughout the remainder of this report.

Source: Mesirow IRED
As a direct or controlling member of owned real estate assets, IRED acknowledges the importance of evaluating and implementing Environmental, Social, Governance (ESG), and health and well-being initiatives into each of the real estate assets and communities where we invest. Our primary responsibility is to maximize the financial return of our clients’ investments, but we recognize there are direct and indirect environmental and social implications to decisions we make as an investment manager.

We are committed to fully integrating ESG Principles, whenever feasible and practical, across our real estate portfolios including but not limited to:

• Investment screening during due-diligence
• Investment decision making and approval
• Asset management
• Property management
• Community engagement

We believe by taking an active and disciplined approach we can successfully elevate our impact on environmental and social initiatives, while meeting and/or enhancing the needs of stakeholders and fulfilling our fiduciary responsibilities to each of our clients.

IRED’s ESG Strategy is designed to treat ESG as a value creation driver and incorporates ESG risk considerations into our decision making. We employ several tactics to emphasize value creation with respect to ESG, such as, a focus on energy efficiency, environmental enhancements, quality of living upgrades, operating transparency, and sustainable asset growth.

ESG policies and procedures are discussed in more detail in the “Environment, Social and Governance” sections of this report.
Environment
Energy and Emissions

According to the EPA, residential and non-residential commercial buildings consume 35% of all electricity consumed in the United States and generate 16% of all CO2 emissions. Also, on average, 30% of energy use in commercial real estate is wasted. We, along with our stakeholders, consider energy consumption as a material topic because of the negative environmental and financial impact that inefficient energy use can have on the environment and success of our business.

Reducing energy use has been a pillar of IRED’s repositioning strategy since inception. As a value-add investment manager it is important to focus on energy consumption because there is often an opportunity to improve the energy efficiency of investment properties thus, reduce negative material impacts. This has positive financial impacts to stakeholders and our business because it makes renting more affordable by lowering resident utility costs, cutting emissions and reducing operating expenses.

IRED’s ESG policy incorporates guidelines for our acquisition team, property management teams and asset managers to support them in carrying out our ESG objectives. These guidelines cover procedures during the acquisition period, during asset management/property management and through the disposition of the asset. The team employs the following tactics to add value for investors with respect to energy.

- Implement efficiency measures through capital investments
- Energy Management Systems and Benchmarking
- Energy Procurement

During due diligence our acquisitions team performs the following practices before we obtain Investment Committee approval.

- Evaluate up to 24 months of energy, water, and waste utility bills and historical utility costs.
- Engage a qualified Energy Auditor to conduct an Energy Audit identifying efficiency measures and opportunities.
- On qualified investments, finance properties via Fannie Mae or Freddie Mac’s Green Bond Financing programs. This allows us to receive a lower interest rate by agreeing to make capital improvements which reduce the property’s energy and water use by 30% or receive a lower interest rate in exchange for acquiring a property with a recognized green building certification.

Upon acquisition and on an on-going basis the assigned asset manager and third-party property management team will conduct the following:

- Develop capital renovation plan and incorporate accretive opportunities for energy efficiency improvements.
- Enroll the property in ENERGY STAR® Portfolio Manager® (“ESPM”) to monitor energy use and establish reduction goals.
- Engage third-party utility billing company to process electric, gas, trash, and water bills and to track utility usage and consumption data.
- Execute the value-add repositioning strategy and oversee progress of efficiency measure projects.
- Procure energy supply contracts for properties in deregulated energy markets to secure fixed rate pricing contracts with at least 50% coming from renewable energy sources.
Energy and Emissions

Our strategy and approach includes the following tactics to appropriately address stakeholder concerns with respect to Energy and Emissions.

Efficiency Measures through Capital Investments

In 2019 we updated our ESG policy to require an energy audit on every potential investment during due diligence. This allows our team to better understand the energy efficiency of the property and to know where to implement efficiency measures. Energy audits were conducted in the past, but they were coordinated by our property management companies. The data was not comparable across vendors, so our team searched for qualified third-party energy auditors to be engaged during due diligence. Any accretive opportunities identified in the energy audit are included in the capital improvements.

Since multifamily properties are essentially homogeneous, energy capital improvements include LED lighting retrofit, installation of energy star rated appliances and hot water heaters, HVAC equipment, lighting controls, smart thermostats and pool pump equipment.

When major repairs or replacements to building mechanical systems are needed, but not included the capital program, we conduct a cost benefit analysis of selecting energy efficient building components.

Energy Management Systems (EMS) and Benchmarking

We believe that “What gets measured gets managed”. We can spend all the money in the world; but, without measuring, how do we know that our investors’ money was well spent? Technology and data have been an important part of our ESG strategy. Through various channels we obtain data and integrate that data into Energy Management and Benchmarking software. This software allows our team to review energy usage and cost, set goals, monitor goal progress, report energy data, and compare our properties to similar properties in our portfolios or similar properties throughout the United States.

Some municipalities where we own properties have energy benchmark ordinances that require us to benchmark our property or report energy data. Failure to comply with these ordinances can lead to penalties so it is a priority for us to leverage this software to remain in compliance. At year end, IRED had 8 investments located in municipalities with an energy benchmark ordinance requiring annual disclosure of energy data. We were in compliance with these ordinances through the issuance of this report.

Goals

<table>
<thead>
<tr>
<th>Energy and Emissions</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reduce energy consumption by 5% of our 2019 levels</td>
<td>Energy use decreased 18.6% from 2019 levels.</td>
</tr>
<tr>
<td>Reduce greenhouse gas emissions by 5% of our 2019 levels</td>
<td>Our emissions decreased 19.24% in 2022 from 2019 levels.</td>
</tr>
<tr>
<td>Evaluate and implement low-cost efficiency measures</td>
<td>On-going</td>
</tr>
<tr>
<td>Obtain 50% of procured energy contracts providing energy from renewable sources by 2025</td>
<td>We achieved this goal in 2021</td>
</tr>
<tr>
<td>Monitor and set goals for 100% of properties in Energy Star Portfolio Manager</td>
<td>Data collection and integration is in progress.</td>

The most important natural resource we have is water. With our properties totaling around 9,000 units, the amount consumed each year at our properties is significant. We consider it good practice to conserve water as much as possible, especially in regions with water scarcity concerns.

As with any expense we look to reduce water expenses as much as possible. We constantly evaluate opportunities for water savings. The on-site property management team is tasked with addressing water related repairs immediately and reviewing monthly water usage for cost or usage variances. We typically include water efficiency measures in our capital renovation program. IRED conducts monthly reviews of water usage and costs to identify negative variances and negative trends.

**Capital Improvements**

IRED incorporates accretive water conservation measures such as low-flow toilets, faucets, faucet aerators, and showerheads into the capital renovation program when our water evaluation indicates the property has poor water efficiency.

**Irrigation**

We do not typically include irrigation systems in our capital renovation program unless there are major repairs needed. We do encourage our team to consider efficient replacement systems upon replacement or major repair that leverage technology to reduce the amount of water used in irrigation of landscaping. Also, a majority of our properties are landscaped with drought tolerant and plants native to the area which helps reduce the water needed.

**Water Management and Benchmarking**

Every property engages a third-party utility company to process electric, gas, and water bills. This allows us to automate utility payments while collecting data needed to evaluate efficiency and to identify opportunities for improvement. Water data is uploaded into ESPM and we benchmark the water performance of our properties.

**Water Consumption**

| Status | 
|---|---|
| Reduce water consumption by 5% of our 2019 levels | Our LFL water consumption decreased 30.7% from 2019 levels |

**303-5 Water Consumption (m3)**

Multifamily properties are uniquely positioned as the only major property type where the individual as end-user of the space directly drives the amount of waste generation. Since waste generation at our properties is out of our control, we seek to reduce waste generation as much as possible.

Our property management team is responsible for reviewing monthly waste removal invoices, assessing the waste removal schedule periodically and communicating with residents about waste performance. We are evaluating additional opportunities to divert waste from landfills by offering composting opportunities at our properties and a program coordinating the donation of bulk household goods.

Recycling
Every property in our portfolios has a single stream recycling program.

Valet Trash
A majority of our properties offer a valet trash pick-up service which aids in the diversion of recyclable waste from landfills.

Climate and Environmental Risk

With a geographically diversified portfolio located in urban and suburban areas, there are risks that can disrupt our operations, including potential physical risks from weather events as well as environmental risk factors impacting a property.

Our goal is to identify as many risks specific to a potential acquisition and establish a plan to mitigate the risks to an appropriate level given the return we expect to receive. All material risks and opportunities are communicated to the Investment Committee for consideration. Many of these risks are reviewed periodically throughout our ownership period in an effort to reduce impacts to our business. Our intent is to create a formal Risk Assessment process in line with industry standards and have a regular schedule for risk assessments.

Due Diligence Screening
We conduct a rigorous due diligence process for all acquisitions and development properties, which includes a review of overall resilience against the expected impacts of climate change and other business continuity risks. Through this process, we consider several characteristics that increase resiliency and sustainability.

- We consider physical risks such as the potential for flooding, wildfires and environmental hazards
- We engage qualified third-parties to conduct Phase I Environmental Site Assessment on all new acquisitions
- A Professional Engineer reviews construction drawings on all new acquisitions to assess resiliency for extreme weather events such as hurricanes, earthquakes and flooding
- We conduct an energy audit on all new acquisitions to identify opportunities or inefficiencies that can impact the environment.

Flood zones
Some of our properties or portions of our properties are located in a 100-year flood zone. We manage flood related risks with appropriate levels of insurance. The total area of properties located in a 100-year flood zone in our portfolios is 1,393,796 square feet which represents less than 15% of our portfolio.

Insurance
We carry insurance for all of our operating properties and joint venture developments against weather events such as flood, fire, earthquake and other catastrophic weather events subject to deductibles.
Building Certifications and Energy Ratings

Building Certifications
Our overall strategy is to add value. One method of adding value is repositioning properties from inefficient to efficient throughout our ownership period. We target assets for disposition when we have executed our value-add strategy. It may take time to meet all requirements for certification. Given the cost of the most common rating schemes, we have not prioritized building certifications but we seek to align with a Green Building Certification standards in our development properties. There has been increasing focus on building certifications and many different options have become available. It is our intention to increase the number of properties with green building certifications and wellness certifications over the next few years. As we explore the various certification schemes we will set a specific target percentage for certifications.

Our portfolios currently have 12 building certifications through organizations such as LEED, Green Building Initiative, and National Green Building Council. The percentage of total multifamily square footage in our portfolio with a building certification is 42%. Our goal for 2023, is to increase our percentage of properties with building or wellness certifications another 25% of the portfolio.

Energy Ratings
In 2019, we began an initiative to enroll each of our properties in Energy Star Portfolio Manager benchmarking. Properties that can achieve an Energy Star rating of 75 or higher can apply for an Energy Star rating. Energy Star ratings signify the subject property is in the top 25% of similar properties also benchmarking whole building energy and water data. There are a number of factors that go into the score, one of which is whole building energy and water data is evaluated. A majority of our properties submeter electric and re-bill for water. Some municipalities can provide whole building data while others do not disclose tenant paid utilities. We are working with various vendors to find data collection solutions that are cost effective.

The percentage of total multifamily square footage in our portfolio with an energy rating is 17%. We will evaluate qualifying properties annually and pursue additional ratings to demonstrate our commitment to energy efficiency.
IRED has over 290 years of collective investment experience; however, that doesn’t mean we know everything. When it comes to ESG we leverage qualified third-parties to assist us in carrying out our objectives.

The following third-party service providers are engaged on every potential acquisition during due diligence. Before engagement we ensure the vendor is qualified for the scope of work being performed and they are licensed with appropriate levels of insurance before starting any projects with our organization.

• Energy Auditors
• Environmental Consultants for Phase I Environmental Site Assessments
• Professional Engineers for Physical Condition Assessments
• Building Certification Consultants for pursuing building certifications during due diligence

The day-to-day operations of our properties are managed by a third-party property management company. Our properties’ supply chain is not directly controlled by IRED. We select best-in-class third party managers, and we expect them to select preferred vendors responsibly. We require all property management companies to adhere to all local, state, and federal laws which include workplace safety.
Residential commercial real estate is unique from all other forms of commercial real estate because shelter is a basic necessity. There are limited options we have for housing. People can buy a home or they can rent. Affordability is an important social factor because over time prices rise and if people cannot afford to own, they have to rent. If rents become too expensive our society will suffer consequences that can take decades to correct.

Although our strategy is to reposition Class A and Class B market-rent luxury apartments, the success of our strategy is not dependent upon gentrifying portfolio properties. We evaluate whether the existing resident base can afford rents we expect to be able to achieve. However, we are in business to add value and to maximize our investors returns. It is our belief the rents we receive is compensation for the value residents receive. In 2020 we conducted an affordability analysis on our portfolios and found that the average household income at our properties was approximately $87,000. Residents could afford to pay the average monthly rent 4 times each month.

Our approach to managing the impact of affordability to our stakeholders include screening during due diligence, taking a research- based approach when selecting markets and submarkets for potential investment, constant attention to market rents on a regular basis, and ensuring compliance with affordability ordinances.
Residents are one of the most important stakeholders we have. Without residents some of our other stakeholders wouldn’t be able to achieve their objectives. Residents are impacted by decisions we make as real estate owners. We pride ourselves in the attention we give to residents in many aspects of our business to promote their health, wellbeing and safety.

Our strategy is to make value-added investments and repositioning Class A and Class B multifamily apartment communities. We add value in a multitude of ways but some examples are making capital improvements to amenities and apartment units and aligning operating standards to industry best practices.

**Capital Improvements**

Our capital renovation program is not a one size fits all approach. A lot goes into the decision making on these capital investments. We have considerable experience working in tandem with capital project managers from our best-in-class property management companies. We’ve learned a few things over the course of our careers when it comes to what residents want. We also hire award-winning interior designers on more intensive capital projects. Since the possibilities of capital improvement depend on the asset there is no standard model. Typical renovation programs include state-of-the-art fitness centers, thoughtfully designed social spaces, outdoor green space, dog parks, co-working spaces, game rooms and uber rideshare lounges.

**Indoor Environmental Quality**

When people think of “environment” they typically think outside. We take precautions to ensure there are no indoor environmental concerns. Our property management companies deploy a thoughtful approach ensuring optimal indoor environmental quality. Every apartment community in our portfolios are 100% smoke-free. Our property management teams have operation manuals for mold and mildew prevention, an air filter replacement schedule, and appropriate storage for harmful chemicals. Residents have temperature and lighting control in 100% of our properties. Lastly, we encourage our property managers to use environmentally friendly cleaning products and low VOC paints.
**Promoting Healthy Lifestyles**

We have a wide range tenant engagement programs that promote healthy living such as fitness events and healthy cooking classes.

Given the importance of resident health and wellbeing, we are constantly developing methods to improve. Fitwel® is a health and wellbeing standard that scores properties or portfolios on seven health impact categories. In 2023, we plan on evaluating our portfolio or individual properties for Fitwel® certification or other building certifications.
Diversity, Equity and Inclusion

We know that our relevance, and our ability to serve clients, depends on the dynamic evolution of a workplace that prizes diverse thought and experience.
Our Six-Point DEI Commitment

1 | Converse  
We support **learning and open dialogue** through programming, events and mandatory training for managers and employees on issues such as unconscious bias, microaggressions and cross-cultural communications.

2 | Diversify  
We work to **increase the presence** of African-American and other professionals of color at all levels of our firm.

3 | Engage  
We engage as a **resource and advocate to underserved communities**, putting our resources to work – financial contributions, employee volunteering, mentoring and in-kind services.

4 | Align  
We align with organizations that **advance diversity in our industry**, including the Chicago Urban League, Chicago United and Financial Services Pipeline.

5 | Champion  
We continuously **diversify our suppliers and vendors** and champion organizations and initiatives driving positive change such as the Chicago United Five Forward.

6 | Participate  
We support **diversity & inclusion platforms** and initiatives within our industry and specific to our lines of business.
Mesirow Diversity, Equity and Inclusion Council

Our Diversity, Equity and Inclusion (DEI) Council partners with executive leadership, providing input and support on best practices while ensuring strategic alignment with the bottom line.

We Advance DEI Across Three Priority Areas

1. Our Workforce
2. Our Suppliers
3. Our Industry
Our Workforce

Employee Resource Groups (ERGs)
- PeerConnect
- PrideConnect
- WomenConnect
- ParentsConnect

- Through our ERGs, Mesirow champions awareness, respect and authenticity throughout all levels of the corporate family.
- We align ERG objectives with overall DEI strategy: talent acquisition, learning and development, and policies.

Work Programs
- Create pathways for early career professionals through the Mesirow Rotational Analyst Program.
- Provide broad access to businesses across Global Investment Management through six-month rotations over a two-year period.
- Serve persons with disabilities through work and training that help individuals grow and thrive professionally while also making deep contributions to our firm and the community.

Programs, Training and Education
- Continuously assess workforce diversity, workplace inclusion and talent systems, and equity of policies and practices.
- Collaborate with ERGs, external consultants and organizations to bring awareness and understanding on diversity topics:
  - 2022: Unconscious bias training
Our Suppliers

Mesirow actively supports and follows Equal Opportunity Employment practices for advancing DEI, ensuring long-term partnerships with a diverse set of suppliers and vendors.

Our diverse network includes, among others:

- African, Latino and Asian Americans (MBE)
- Women (WBE)
- Veteran and service-disabled veteran (SDV)
- Lesbian, gay, bisexual and transgender (LGBT)
- Small businesses (SBE)

Case study: Chicago United

Mesirow has longstanding commitment to increasing the number of minority business enterprises (MBEs) of scale and to creating jobs in communities of color.

Our former Chairman and CEO Jim Tyree was a founding leader of the Five Forward Initiative at Chicago United and today, Mesirow remains a “Five Forward Committed Organization” with a pledge to do meaningful business with five local minority firms over five years.

Mesirow also strives to engage with vendors that are MBEs in the messenger, printing and general merchandise industries.
Our Industry

To advance DEI in the financial services industry, we align with and support multiple leading organizations that are leading the way.

Chicago United
Drives economic parity for MBEs in the Chicagoland area

Our role: Active member and sponsor since 1998

Financial Services Pipeline
Increasing diversity and cultural competency in Chicago financial services

Our role: 2014 founding member

Business Leadership Council
Supports the growth of Black leaders and businesses from grassroots to the boardroom

Our role: Founding sponsor of Lead Pioneers Program

Women Investment Professionals
Empowers women in institutional community

Our role: Key partner in supporting women’s professional development

National Association of Securities Professionals
Advocacy for minorities and women in financial services

Our role: Member / sponsor for 20+ years

CEO Action for Diversity & Inclusion
Largest CEO-driven commitment to workplace D&I

Our role: Became a pledge signatory in 2018

ALPFA
Country’s first national Latino professional association

Our role: Corporate sponsor of executive leadership reception since 2018

Out in Finance
Uniting individuals across financial services to drive LGBTQ+ inclusion and equality

Our role: Original founding member
Programs and Internships for Young Professionals

Investment Management Rotational Analyst Program
- Two-year program comprising four six-month rotations across alternative direct, multi-manager and traditional investment management
- Designed for financially-oriented undergraduate students
- Enables customized training, firmwide connections and critical leadership skill development

Summer Internship Program
- Each class comprises highly qualified college students who gain hands-on industry experience
- Program aligns with our commitment to build a diverse workforce
- Enables talented individuals to leverage their unique backgrounds, knowledge and ideas in driving optimal business solutions and tailored products

Cristo Rey Corporate Work Study Program (CWSP)
- Provides internships to high school students throughout the academic year
- Enables participants to fund nearly 70% of the cost of their college preparatory education while gaining work experience, career exploration, mentorship and networking
- Our interns often return year after year and through their college years

Global Youth Ambassadors Leadership Program
- A globally-immersive program for young women from Chicago and our global sister cities
- Participants engage with business and civic leaders, participating in advocacy and activism workshops and presentations
- Joint initiative of World Business Chicago, Chicago Sister Cities International and the University of Illinois at Chicago; Mesirow WomenConnect has served as a proud sponsor since 2018
Highlights and Key Initiatives

While our commitment to diversity, equity and inclusion is unconditional, we must always do more.

Recent Highlights

- **Established Mesirow Six-Point Commitment** to Diversity, Equity and Inclusion

- Increased representation of women in 2020 intern class to 33% female and 50% underrepresented groups

- Deepened representation of African American executive leadership and professionals at all levels of the firm.

- Earned fourth consecutive score of 100 on the 2022 Human Rights Corporate Equality Index, a national benchmarking tool on corporate policies, practices and benefits pertinent to lesbian, gay, bisexual, transgender and queer employees.

- Increased outreach to Historically Black Colleges and Universities (HBCUs) and Hispanic Serving Institutions (HSIs)

2021: Comprehensive DEI Assessment

In partnership with a leading DEI professional services firm, Mesirow is engaging in a comprehensive DEI assessment.

- Scope will include our workforce (diversity) and workplace (inclusion) as well as our talent systems, policies, and practices (equity).

- The result of this partnership will be a DEI roadmap aligned with Mesirow’s larger strategy and supported by specific implementation steps.
Today’s corporate leaders *raise their voices* for social good. Through *deep civic engagement* in Chicago and the global communities where our clients live and work, we spark positive, and lasting, change.
Areas of Focus

1. Neighborhoods
2. Social Justice
3. Opportunity and Inclusion
We put our resources to work – financial contributions, employee volunteering, mentoring and in-kind services – to support vital initiatives in neighborhoods where we, and our clients, live and work.

**Family Services**

Deep engagement with ChildThrive, offering youth mentoring, trauma counseling, access to primary care services and afterschool programming

Long-term financial investment in Metropolitan Family Services, spanning five years to ensure success

More than 5K employee volunteer hours in our partner neighborhood of Brighton Park*

**Education**

Funding, employee volunteerism, executive leadership engagement and in-office internship programs with:

- LINK Unlimited Scholars
- After School Matters
- Chicago Public School’s Children First Fund
- Chicago Scholars
- One Million Degrees
- Cristo Rey Work-Study Program

**Financial Literacy**

155 8th graders introduced to investing concepts through our Big Shoulders Fund curriculum*

*Data as of 12.31.21.
Spotlight: Chicago Area Neighborhoods

Metropolitan Family Services
Through event support, funding, employee engagement and executive leadership, Mesirow supports MFS’ work to assist more than 93,000 families and individuals annually in Chicago and its surrounding suburbs.

Children’s Place Association’s ChildThrive Center: West Humbolt Park
Neighborhood residents were the catalyst for the center, which provides a secure space for children to feel safe from the threat of violence. Mesirow played a key role in opening the center in 2021, among key service partners such as Juvenile Protective Association and Big Brothers/Big Sisters.

Brighton Park Partnership
Facilitated by United Way, Mesirow has been invested in Brighton Park since 2013:
• Mentoring middle school students through Big Brothers Big Sisters; offering financial literacy through Big Shoulders Fund
• Youth art by Brighton Park students has adorned Mesirow’s holiday cards since 2014
• Professional sculpture installed with Mesirow sponsorship at Esperanza Health Center in 2020

Chicago Scholars
One Million Degrees
Through event support, funding, volunteerism and executive leadership, Mesirow engages with these organizations as they advance college access, community college progress and career pathways to economic mobility.

COVID-19 Related Assistance
We support organizations addressing urgent needs in food security, the acute needs of small businesses, and comprehensive needs of families across Chicago and the suburbs.
• Chicago Public Schools Foundation Compassion Fund
• Metropolitan Family Services
• Feeding America and its local affiliates
• Allies for Community Business (formerly Accion Illinois)
• Families in Brighton Park
• YWCA of Metropolitan Chicago
• Center on Halsted
As a firm, and as individuals, we stand for equal economic, political and social rights and opportunities, and we work together across our firm advance a more peaceful and just society.

Tolerance
Deep executive engagement:
• U.S. and Illinois Holocaust Museums and Education Centers
• Anti Defamation League

Gun Safety and Education
Founding Corporate Impact Partner of Giffords, an organization formed in 2013 by former Congresswoman Gabrielle Giffords to fight the gun violence epidemic.

Racial Equality
New strategic partnerships established 2020-2022:
• Link Unlimited
• Greenwood Project
• YWCA Racial Justice League
• Juvenile Protective Agency
• Business Leadership Council
• Thrive Scholars
• After School Matters
• Neighborhood Entrepreneurship Lab
• Chicago Sky Beyond Basketball

*Data as of 12.31.20.
3 | Opportunity and Inclusion

We serve persons with disabilities through work and training, empowering individuals to grow and thrive professionally as they make deep contributions to our firm and the community.

Actively promoting inclusion for people with disabilities

In partnership with Anixter Center, we deliver two unique programs:

• The Mesirow Opportunity & Inclusion Program: full-time employment and training program tailored to participants' individual interests and abilities.

• 10-week Job Training Program geared towards successful future employment.
  – 25 professionals served through tailored roles
  – 75% of graduates have secured and maintained employment.*

Through executive leadership, event support and funding, Mesirow has helped The Nora Project grow from a startup nonprofit to a thriving organization. The Nora Project trains and coaches educators and offers a suite of social-emotional school programs that dive deeply into the concepts of empathy and inclusion, explicitly addressing disability and difference as a part of human diversity.

• Since 2018, the organization has increased the number of schools it serves by more than 400%. Currently 36% of schools served are in low-income neighborhoods, receiving comprehensive TNP programming and support at no cost.

*Data as of 12.31.20.
Highlights and 2022 Initiatives

Recent Highlights

• During the first six months of the COVID-19 pandemic, Mesirow offered a corporate match of employee donations to support organizations addressing urgent needs in food security, the acute needs of small businesses, and comprehensive needs of families across Chicagoland.
  – This included support of women- and LGBTQ-focused organizations meeting their clients’ unique needs

• Became a Founding Member of the Giffords Impact Network in the fight against gun violence.

• Launched a four-year partnership with LINK Unlimited Scholars, providing college and career guidance to African American students through deep-rooted, long-term mentorship pairs with our employees.

• Collaborated with WNBA Champion Chicago Sky to support WBE/MBE small businesses in Chicago through business mentorship and a pitch competition.

• 2021 Alzheimer’s Association Corporate Honoree – recognized for Mesirow’s more than 30-year commitment to advance the mission of the Association.

2022 Key Initiatives

• Continue to deepen the integration of Mesirow’s Community Engagement and DEI initiatives through strategic nonprofit partnerships serving marginalized communities, as well as employee engagement through education and volunteerism. Partners include:
  – Business Leadership Council
  – Link Unlimited Scholars cohort sponsor
  – Greenwood Project
  – Juvenile Protective Agency
  – Thrive Scholars
  – After School Matters
  – Neighborhood Entrepreneurship Lab
  – Children’s Place Association/ChildThrive initiative

• Establish a partnership with Aurora University as they launch their Pathways Project to provide access to college-capable students on the autism spectrum, and their families.
Governance
Governance Structure

Mesirow is an independent and employee-owned financial services firm. Mesirow has a strong corporate governance structure ensuring the highest level of integrity in business units across our company.

**Board of Directors**
Our Board of Directors, chaired by Richard Price, is comprised of 14 business leaders at Mesirow including the CEO of IRED, Alasdair Cripps. The Board’s committees include an Enterprise Risk, Stock Purchase Plan, Investment Management Strategy Committee and Audit Committees. The Chairman and board members are nominated and elected by voting common stockholders.

**Mesirow Sustainability Council**
The Sustainability Council is comprised of a diverse set of senior leaders from across the firm. The Council is accountable to the Board of Directors with at least one Board member acting in dual capacity as a member of both groups to ensure integration and alignment. The Council sets and reviews goals annually.

**IRED ESG Task Force**
Our ESG Task Force includes six (6) members of our investment team each specializing in a key function of our platform, including the CEO, Alasdair Cripps. The Task Force is responsible for identifying and managing ESG impacts and periodically reviews ESG topics as they pertain to our business operations.

---

**Denotes cross-functional cooperation to achieve IRED ESG objectives**

**Denotes accountability to corresponding entity with respect to ESG matters**
In 2019, we created an ESG Task Force with key team members and representation from our third-party ESG/GRESB consultant. The team meets quarterly to discuss progress on key initiatives, ESG trends, and ESG Team training.
Mesirow Sustainability Council

Comprising a diverse set of senior leaders from across the firm, the Council is accountable to the Board of Directors, with at least one Board member acting in dual capacity as a member of both groups to ensure integration and alignment. The Council sets and reviews goals annually.

Integrity and Ethics

We believe that if you’re going to do something, do it right. To us, that includes doing the right thing. We value the trust investors place in us, and we believe integrity, honesty and transparency are critical to the success of our business outcomes. It is the policy of Mesirow that all employees should adhere to the highest ethical, business and legal standards in the conduct of their business and in their dealings with business contacts.

We have established a set of regulations to provide guidance of the legal and ethical guidelines that employees are expected to follow. Every employee, without exception, is expected to become familiar with the Code of Ethics, adhere to the Code and report any violations. The Code of Ethics falls under the Mesirow Investment Advisory Compliance Manual. Upon being hired at Mesirow, all employees must acknowledge that they have received and read a copy of the Manual and must also undergo periodic training. On an annual basis, all employees must confirm that they understand the requirements of the Compliance Manual. Additionally, employees must acknowledge that they will abide by the Mesirow Code of Ethics, Insider Trading Policy, and the Anti-Money Laundering Policy. Further, Mesirow has designated a Chief Compliance Officer to administer implementation of the policies and procedures within the compliance program.

Code of Conduct Policies
- Personal securities transactions
- Insider trading
- Political Contributions
- Anti-money laundering
- Whistleblower
- Confidentiality
- Gifts and Entertainment
- Customer complaints
- Records retention

Annual Training for All Employees
- Anti-money laundering
- Anti-Harassment
- Ethics

Key Employment Policies:
- Equal Employment Opportunity
- Anti-Harassment and Anti-Bullying
- Workplace Violence
- Drug-Free Workplace
- Internet and Information Policies
- Proxy Voting
## GRI Content Index

Global Reporting Initiative (GRI) Standards are organized into three series: **200 (Economic topics)**, **300 (Environmental topics)**, and **400 (Social topics)**. The universal Standards support the organization in identifying its material topics and lay out important principles to use when preparing a report.

For certain strategies that the adviser determines to be ESG integrated, the adviser integrates financially material environmental, social and governance (ESG) factors as part of the portfolio’s investment process (ESG Integration). ESG Integration is dependent upon the availability of sufficient ESG information for the applicable investment universe. ESG determinations may not be conclusive and securities of companies/issuers may be purchased and retained, without limit, regardless of potential ESG impact. The impact of ESG Integration on performance is not specifically measurable as investment decisions are discretionary regardless of ESG considerations. There can be no assurance that portfolios incorporating an ESG strategy will be profitable or will equal previous or other results and materially different results may occur.
