

SMID Cap Value Equity

INVESTMENT PHILOSOPHY

We believe that excess returns can be produced by investing in attractively valued stocks that are poised to appreciate due to catalyst driven earnings and cash flow growth.

INVESTMENT OBJECTIVES

Over a full market investment cycle, we believe the strategy can generate 200 basis points of annualized alpha with approximately 85% of the risk of the market, where market risk is defined as standard deviation, beta or downside capture.

DETAILS

SMID Cap Strategy Assets: \$199 million*

Vehicles Offered:

- Separately Managed Account
- Collective Investment Trust

TOTAL RISK VERSUS TOTAL RETURN¹

1. Composite performance for the period July 1, 2010 through March 31, 2022. Performance information used by MEM to create the graph is gross of fees and includes reinvestment of all income. Please see the next page for a comparison of gross and net performance for this period. The above performance is supplemental. Please see the attached GIPS Report for complete performance, including net and benchmark descriptions.

2. As of March 31, 2022. Performance is stated gross of fees and includes reinvestment of all income. Performance for periods greater than one year is annualized. Past performance is not indicative of future results. The above performance is supplemental. Please see the attached GIPS Report for complete performance, including net and benchmark descriptions.

3. As of March 31, 2022. Portfolio characteristics, sector weights and market cap weightings are calculated from a representative account invested in the MEM SMID Cap Value Equity strategy. The above performance is supplemental. Please see the attached GIPS Report for complete performance, including net and benchmark descriptions.

MEM manages separate account portfolios for a client base that includes public funds, corporate pension funds, Taft-Hartley funds, endowments, not-for-profit organizations and police and fire pension funds. MEM manages portfolios for two traditional strategies: Mesirow Small Cap Value Equity and Mesirow SMID Cap Value Equity as well as two Sustainability strategies: Mesirow Small Company Sustainable Equity and Mesirow SMID Company Sustainable Equity. The performance presented herein represents past performance and is no guarantee of future results. Performance is measured against the primary benchmark for the MEM SMID Cap Value Strategy represented by the Russell 2500 Value Index. MEM and benchmark performance reflect the reinvestment of dividends and interest income, expressed in U.S. dollars. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. MEM's small-mid cap value accounts invest in stocks with market capitalizations within the range of the SMID-cap universe, defined by the Russell 2500 Index. To receive a complete list and description of MEM composites and/or presentations that adhere to the GIPS standards, contact Eric Welt at 312.595.2281 (eric.welt@mesirow.com) or write Mesirow Equity Management, 353 North Clark Street, Chicago, IL 60654. Past performance is not necessarily indicative

of future results. Please refer to the following GIPS Reports for complete performance and disclosure information. MEM claims compliance with the Global Investment Performance Standards (GIPS®). The Mesirow name and logo are registered service marks of Mesirow Financial Holdings, Inc. © 2022, Mesirow Financial Holdings, Inc. All rights reserved. Securities offered through Mesirow Financial, Inc., FINRA, SIPC.

Mesirow Financial Equity Management (“MFEM”) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Mesirow Financial Equity Management has been independently verified for the periods 01.01.1996 – 12.31.2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The SMID Cap Value Equity Composite has had a performance examination for the period 01.01.2016 – 12.31.2021. The verification and performance examination reports are available upon request.

Benchmark returns are not covered by the report of independent verifiers.

Mesirow Financial Investment Management, Inc. (“MFIM”) is an investment advisor registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940. The historical performance presented prior to the creation of MFIM was managed by MFIM or its predecessor firms prior to 01.01.2005. For purposes of claiming GIPS compliance, as of 01.01.2010 the “Firm” was further defined as the US Value Equity business unit, now defined as Mesirow Financial Equity Management (“MFEM”) which manages portfolios primarily for institutional investors adhering to an investment process incorporating fundamental analysis of security valuation factors and drivers. The composites within this unit vary primarily by the capitalization range of the equity securities held. Mesirow Financial Equity Management is comprised of the legacy entities of Mesirow Financial Investment Management - US Value Equity (the surviving entity) and Fiduciary Management Associates, LLC (the acquired entity), with each prior to this effective date being held out to the public as separate firms, and each claiming compliance with the GIPS Standards. Effective 04.01.2016, the firm was redefined and renamed for GIPS purposes to include both the legacy Mesirow Financial Investment Management - US Value Equity division and the legacy Fiduciary Management Associates, LLC division as one combined entity.

In 2016, MFIM acquired the asset management rights for all managed portfolios from an independent investment advisory firm and retained all of the principals and employees related to such portfolios. Performance results of the SMID Cap Value Equity Composite at the prior firm are the performance record of the Firm.

(1) Total Firm Assets are not presented for periods prior to 2016 because the Composite was not part of the Firm.

*Performance and composite inception and creation date is 05.01.2010.

The SMID Cap Value Equity Composite includes all institutional portfolios that invest in the SMID capitalization strategy subject to a \$1,000,000 minimum account size. Prior to 06.01.2019 the SMID Cap Value Equity Composite was named the Small-Mid Cap Value Equity Composite, and materials referencing the composite did so by that name. Between 03.31.2016 - 10.01.2014 there was no stated minimum account size threshold for inclusion. Prior to 10.01.2014 the minimum account size required for composite membership was \$1,000,000. The strategy allows for investments in equity securities of companies with market capitalizations in a range representative of constituents in the Russell 2500 Index. The strategy aims to deliver a total return primarily through long-term capital appreciation. The benchmarks for the strategy are the Russell 2500 Index and the Russell 2500 Value Index. The perfor-

mance presented herein represents past performance and is no guarantee of future results. Gross returns presented are net of any withholding taxes incurred. MFEM and benchmark performance reflect the reinvestment of dividends and interest income, expressed in U.S. dollars. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. The firm maintains a complete list of composite descriptions, a list of pooled fund descriptions for limited distributions pooled funds and a list of broad distributions pooled funds, which is available upon request. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Calculation of Risk Measures: Annual / 3 Years Dispersion

Composite internal dispersion is calculated using the asset-weighted standard deviation of annual gross returns of those portfolios that were included in the composite for the entire year. Because it is not statistically meaningful, MFEM does not calculate the dispersion of annual returns for the years the composite held five or fewer accounts. Inclusion of the three-year annualized ex-post standard deviation of the composite and benchmark was added as a requirement effective 12.31.2011.

(3) Data are not presented for periods containing less than 36 monthly returns for the composite.

Performance / Net of Fee Disclosure

Effective 04/01/2016 the composite excludes bundled fee accounts. Between 03.31.2016 – 10.01.2015 the Composite included bundled fee accounts and accounts that did not pay management fees to MFEM. The bundled fees included a combination of trading, custody and other administrative fees. Those bundled fee accounts and non-management-fee paying accounts represented less than 1% of Composite assets. For bundled fee assets, gross of fee performance is reduced by the entire bundled fee since trading expenses cannot be isolated.

Net of fee performance is calculated using the actual monthly fee accrued to each account in the composite. In presentations shown prior to 06.30.2014, net of fee performance was calculated using the highest actual management fee charged to a member of the composite during the calendar year, applied monthly. Performance information that is provided gross of fees does not reflect the deduction of advisory fees. Client returns will be reduced by such fees and other expenses that may be incurred in the management of the account. Advisory fees are described in Part 2 of Form ADV of MFIM.

Investment Fee Disclosure

MFEM requests that any third party, including investment management consultants, provide our performance data only on a one-on-one basis. Performance results are presented before management and custodial fees.

Vehicle	Fee Schedule
SMID Cap Value Strategy (described in MFEM’s Form ADV, Part 2)	0.85% on the first \$25 million 0.75% on the next \$25 million 0.60% on the next \$50 million 0.55% on the balance
SMID Cap Value Equity CIT Strategy	0.45% on all assets – Founder Class (First \$100 million) 0.75% on all assets – Class A

GIPS REPORT – MFEM SMID CAP VALUE EQUITY COMPOSITE (CONTINUED)

An actual fee charged to an individual portfolio may vary by size and type of portfolio. Fees are collected quarterly, which produces a compounding effect on the total rate of return net of management fees. As an example, the effect of investment management fees on the total value of a client's portfolio assuming (a) \$1,000,000 investment, (b) portfolio return of 8% a year, and (c) 0.85% annual investment advisory fee would reduce the portfolio's value by \$8,892 in the first year, by \$51,223 over five years and \$123,351 over 10 years. Actual investment advisory fees incurred by clients will vary.

Benchmark Definition

The Russell 2500 Index measures the performance of the small to mid-cap segment of the U.S. equity universe, commonly referred to as "smid" cap. The Russell 2500 Index is a subset of the Russell 3000® Index. It includes approximately 2500 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2500 Value Index measures the performance of the small to mid-cap value segment of the U.S. equity universe. It includes those Russell 2500 companies with lower price-to-book ratios and lower forecasted growth values.

The Russell 2500 Index is constructed to provide a comprehensive and unbiased barometer for the small to mid-cap segment. Both Indices are completely reconstituted annually to ensure large stocks do not distort the performance and characteristics of the true small to mid-cap opportunity set and that the represented companies continue to reflect value characteristics. (Source: Russell)

These indexes have been displayed as comparisons to the performance of the SMID Cap Value Equity Composite.
