

Public Finance

Mesirow Public Finance provides innovative debt financing solutions to a diverse set of public clients – government agencies, non-profits and other tax-exempt and taxable borrowers – as they fund important capital and infrastructure projects. Our clients are offered unbiased service with access to both regional and sector-based approaches. Regional bankers in five US urban centers support clients' day-to-day needs and, as needed, sector specialists provide targeted expertise. Our clients also benefit from differentiated, integrated capabilities from across Mesirow Capital Markets.
